

BPQ BoM 2021-22

- 1. September: 3-D Effect (each block has two shades of one color)
- 2. October: Checkered Lattice (Jenny Doan)
- 3. November: Stained glass
- 4. December: X-Mas
- 5. January: Penguin
- 6. February: Crumb block with sashing on two sides
- 7. March: Woven
- 8. April: Confetti
- 9. May: Butterfly
- 10. June: Dresden sunflower

### 3-D Effect – September, page 1 of 1

This finishes at 12.5" raw edge

This block is basically an uneven nine-patch, made with two shades of the same color, one visually lighter than the other, but relatively close (so one looks like a shaded version of the other). It is preferable to use a blender or a print that doesn't involve a bunch of other colors.

Fabric:

From the dark:

- one 7" square
- one 3.5" square
- one 4" square
- two 3.5 x 6.5" rectangles

From the light:

same as the dark

Center HST:

Construct a 6.5" HST by placing the 7" light squares on the 7" dark square, right sides together. Draw a diagonal line on the light and sew  $\frac{1}{4}$ " on each side of the line. Cut on the line, press the seam open. Trim to 6.5" square. (Note: this makes two, although you only need one HST for the block. However, I find it to be the most accurate construction method. You can make an extra block if you'd like 😊)

Corner HSTs:

Same technique as the 6.5" HST above, except using the 4" light and 4" dark. Trim to 3.5" squares.

Lay out as in the diagram and sew together.
